- Log in & sign up open same model, different form.
- When sign up submit, logins the user

PROFILE

The diagram shows a hand-drawn wireframe of a profile page. At the top, there's a header with a logo (WHAT AI), a back/forward button, a URL bar containing "https://whataiwant.io", and a welcome message "WELCOME 'username'". Below the header is a navigation bar with "Profile" (highlighted with a blue oval), "Home", and "MAKE MAKE". A dashed line separates this from the main content area.

In the main area, there's a large card on the left containing a placeholder user icon, the text "USGRNAME", and "EMAIL". To the right is a 3x2 grid of five placeholder user icons, numbered 1 through 5. The bottom-right cell contains the text "OVERFLOW - AUTO".

On the far left, a vertical list of items is labeled "Saved Lists" and includes entries like "Hair(color): Black", "clothing/ACC: Tuxedo", "Gender: Male Presenting", "Art style: Baroque", "website style: Twitter", and "Background: City". Red arrows point from the top of this list to the first three icons in the grid.

VERTICAL Carousel
of lists

Make a #id? (Separate from
actual object id) so user is able
to match list to saved
image, ie ① to ①
& ② to ②

Grid collection of
Saved characters, on hover
Square pops out, on click opens
Modal that shows avatar and
list used to make avatar.

- website style: Twitter
- Background: City

- Also add edit/delete options for images & profile info (modal edit/delete for image)

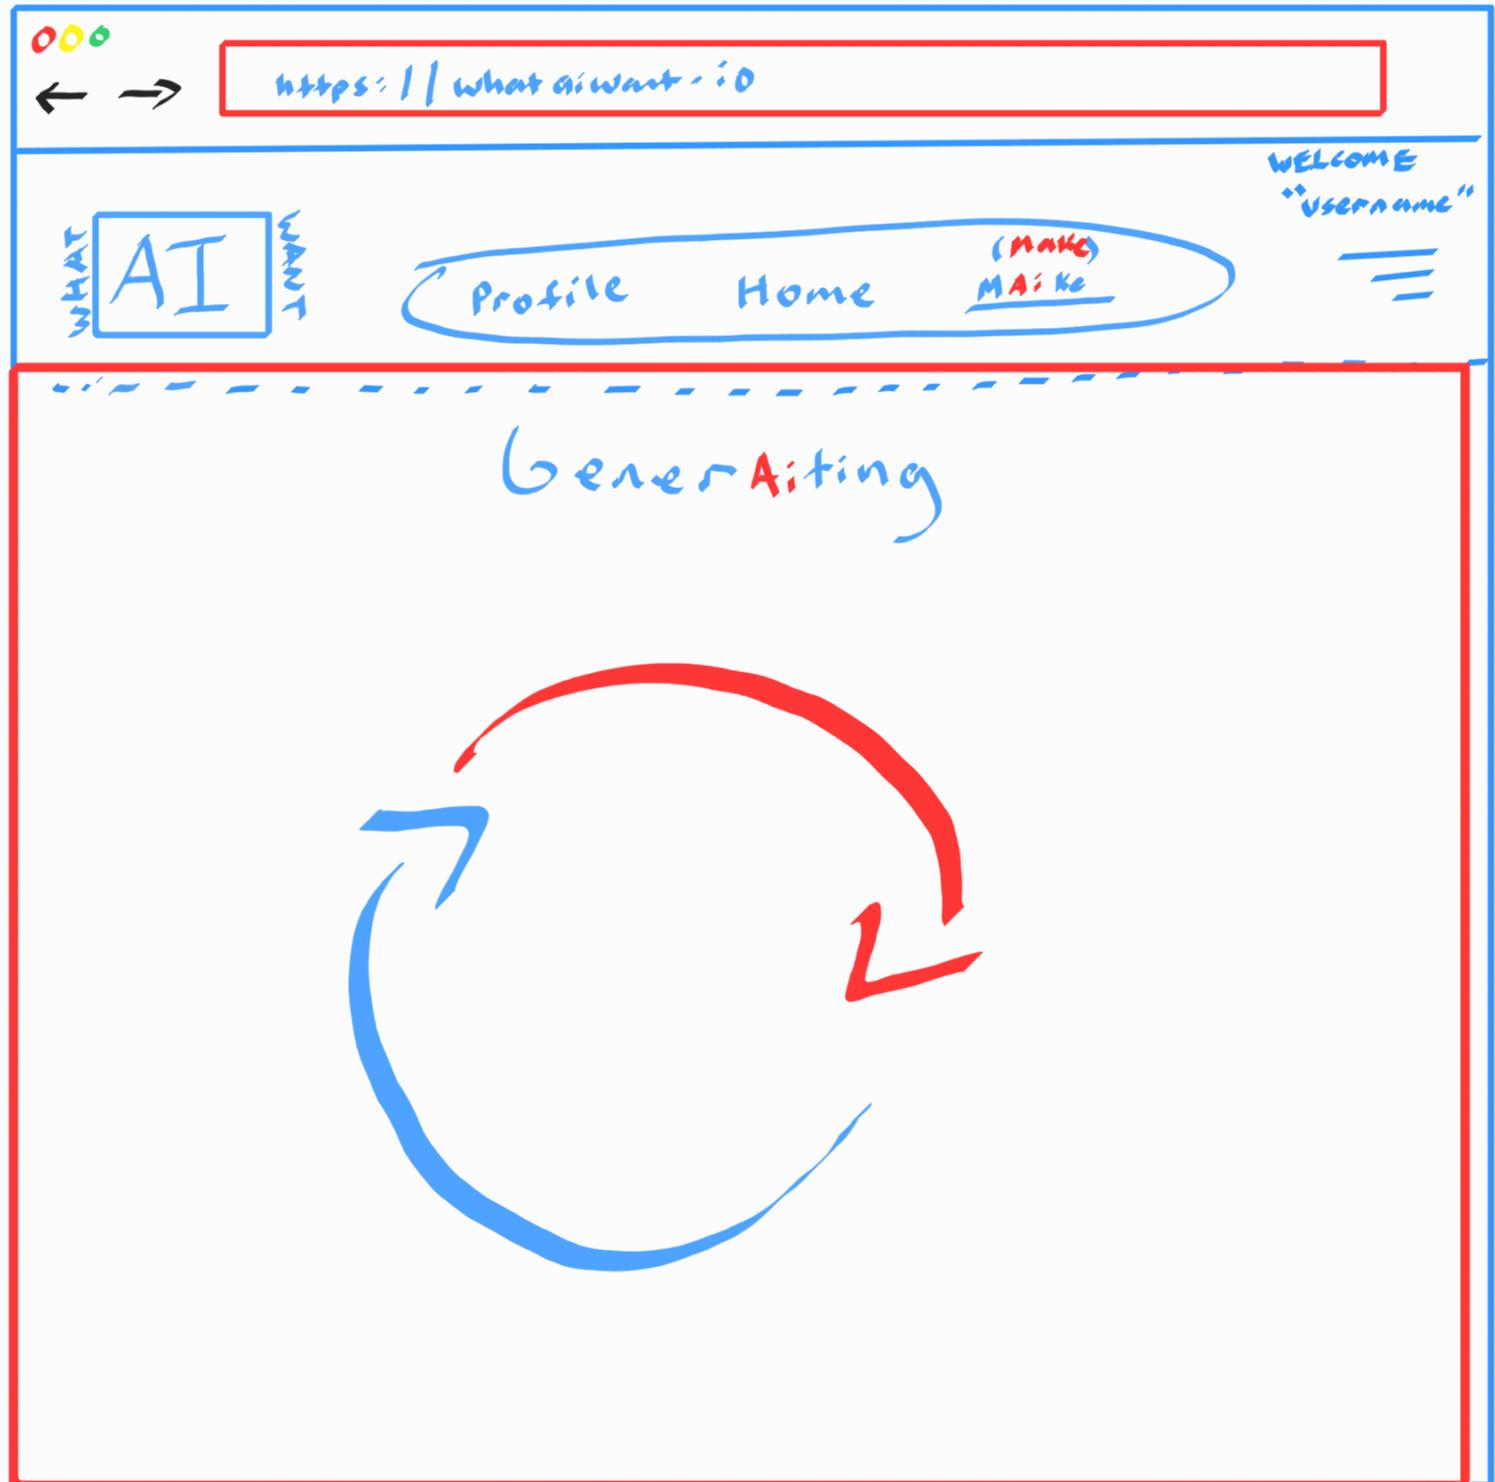

- Edit list? , list may not be tied to photo

Creating Image Route (MAIKE)

- On button press, it saves list and opens modal.
- See next page for modal!
- Add loading screen for modal

Creating Image Route (MAIKE) Loading screen

- Loading Page for modal
on button press, awaits response
from API & Backend

Creating Image Route (MAIKE) Modal

The diagram shows a hand-drawn wireframe of a modal window. At the top, there's a header bar with a back/forward button, a URL field containing "https://what-i-want.id", and a welcome message "WELCOME 'username'". Below the header is a navigation bar with "Profile", "Home", and a circled "MAIKE" link. The main content area contains four large red-outlined boxes arranged in a 2x2 grid. To the right of the top row is a red circle with an "X" and a "Save?" button below it. To the right of the bottom row is a "Cancel" button. At the bottom, there's a section titled "Appearance" with "Hair color: Black", "Clothing: Tuxedo", and "Gender: Male". There's also a "Style" section with "Background: City", "Art-style: Baroque", and "Website Style: Twitter". A note at the bottom left says "Modal w/ save dimensions as box under Header.", and a note on the right says "-Add button for Save/Cancel". A final note at the bottom right says "- On Save, redirect to profile page".
